Highlights

21 Apr 2009
New liquidity ratios in development for U.S. colleges, hospitals, other not-profits
Because clear and comparable information on liquidity is more critical in determining credit risks in the current stressed environment than ever, we will explore new, defined liquidity measures. Universities and hospitals generally disclose little or no information regarding the true liquidity of the cash and investments reported in their audited financial statements... See all research and ratings of a single issuer at one glance

Type-ahead displays possible issuer matches based on popularity after you type in just three letters, speeding up your search.

A single click on this issuer match will direct you to the "At-A-Glance" page for highlighted issuer, "Bank of America, N.A."

Summary information at the top of the page presents a clear picture of the current status of the entity

View the analysts covering the entity and contact them directly.

Research is split into multiple buckets to make it easier to find the correct analysis

View ratings, rating graphs, and ratings history for a single issuer all on one page

Add issuers and debts to your portfolios in real time

Access additional information based on issuer type. For example, Family Tree and Peer Groups for Corporate issuers, Related Organizations of US Public Finance, and Related Parties for Structured Finance.

Export ratings of a particular entity or history of a single rating
