Policy for Withdrawal of Credit Ratings

POLICY

I. What is a Withdrawn Credit Rating?

MIS withdraws its Credit Rating when it no longer rates an entity, debt or financial obligation, debt issuance program, preferred share or other financial instrument for which it previously assigned a rating. If appropriate and feasible, Credit Ratings will be adjusted before the withdrawal to reflect MIS’s current rating opinions.

NOTE: This policy and accompanying procedure do not apply when a Credit Rating committee assigns a Credit Rating to an issuance whose sale is canceled by the Rated Entity without the Credit Rating ever having been published. Because the obligation does not exist, and the Credit Rating was never published, the Credit Rating does not need to be withdrawn.

II. Reasons why MIS might withdraw a Credit Rating

MIS may withdraw a Credit Rating for any of the following reasons:

1) Incorrect, insufficient or otherwise inadequate information: MIS shall withdraw any Credit Rating if, in MIS’s opinion: (i) the information available to support the Credit Rating – whether in terms of factual accuracy, quantity and/or quality – is insufficient to effectively assess the creditworthiness of the Rated Entity or the obligation; and (ii) such information is unlikely to be available to MIS in the near future.

2) Bankruptcy/Liquidation/Debt Restructuring/Write-down of a Structured Finance Security: if a Rated Entity defaults, enters bankruptcy, is liquidated, or restructures its debt, or if a structured finance security experiences a full or partial write-down that results in a zero current balance, it may no longer be useful or necessary for MIS to maintain a Credit Rating on that Rated Entity or that Rated Entity’s obligations.

3) Reorganization: if a Rated Entity becomes the subject of a corporate reorganization or regulator-imposed restructuring, including a merger or acquisition, or enters into any other form of governmental administration, it may no longer be useful or necessary for MIS to maintain a Credit Rating on that Rated Entity or that Rated Entity’s obligations.
4) Methodological thresholds for certain Structured Finance transactions: if the applicable Credit Rating Methodology states that MIS will not maintain Credit Ratings in the event that aspects of the transaction cross specified thresholds, MIS shall withdraw the Credit Rating.

- Small Pool Factor: when the size of the asset pool supporting the transaction falls below a level specified in the applicable Credit Rating Methodology.

- Non-Rated Asset Factor: when the principal balance of performing assets in the collateral pool without a Moody’s Credit Rating, a credit estimate or a structured credit assessment exceeds a level specified in the applicable Credit Rating Methodology.

5) Maturity of Obligation or Termination of Program: the Credit Rating on an obligation will be withdrawn when the obligation is not outstanding or the program has been terminated. This includes when a debt matures, when a debt is called, when a debt is repaid before the maturity date, when a Credit Rating on a debt or program is issued and published but the debt is ultimately not issued, or the program is not closed, and/or when a debt is otherwise redeemed by the Rated Entity. Because Moody’s may not receive timely notification in the event where a debt is called, redeemed, repaid or otherwise terminated before its stated maturity date, Moody’s will generally withdraw such ratings once it learns of the event of termination, using the current date as the date of the withdrawal. A rating withdrawal may also be appropriate as a result of amendments to the transaction terms of an obligation.

6) Business Reasons: under certain circumstances, MIS will withdraw a Credit Rating for a Rated Entity or an obligation for reasons unrelated to the situations identified above. When MIS indicates that a Credit Rating was withdrawn for “business reasons,” this often refers to MIS’s business reasons, not the business reasons of the Rated Entity or obligor. In other circumstances, a Credit Rating that is withdrawn to satisfy an MIS regulatory obligation, other than one that is described in any of the other withdrawal reason categories described in Section II of the policy, will be considered withdrawn for “business reasons”. MIS’s business reasons generally do not reflect any concerns about the Rated Entity’s creditworthiness or the quality of its management. Where appropriate, MIS’s decision to withdraw a rating under these circumstances will attempt to balance the informational benefit to market participants from maintaining a Credit Rating against the resources required to maintain and monitor that Credit Rating or other business considerations.

7) Shareholding: MIS shall immediately assess whether there are grounds for withdrawing EU Credit Ratings when they relate to a 10% Shareholder or an Impacted Rated Entity.

8) Conflicts of Interest: in any of the following cases, MIS may determine that it is necessary to withdraw a Credit Rating, if:

a) an MIS Employee who participates in the determination, approval or monitoring of a Credit Rating, or that employee’s Family Member had or has direct Ownership in the Rated Entity or in any Related Third Party at the time the Credit Rating was determined;

b) an MIS Employee who either participated in the determination of the rating, the approval of the Credit Rating, or the monitoring of the Credit Rating, acted in violation of the MIS Fee Discussions Guidelines;

c) an MIS Employee who either participated in the determination of the rating, the approval of the

Credit Rating, or the monitoring of the Credit Rating, has had a relationship with the Rated Entity or a Related Third Party that constitutes a prohibited conflict of interest;

d) an MIS Employee who either participated in the determination of the rating, the approval of the Credit Rating, or the monitoring of the Credit Rating, or his or her Family Member, received gifts, including entertainment, in violation of the MIS Gifts and Entertainment Policy; or

e) either MIS or an entity associated with MIS made recommendations to the obligor or the Rated Entity, underwriter or sponsor of the security about the corporate or legal structure, assets, liabilities or activities of the obligor or Rated Entity of the security in violation of MIS policies or procedures.

9) Public Point-In-Time Credit Ratings: to meet market needs in certain sectors, MIS occasionally assigns a public Credit Rating on a “point-in-time” basis that is subsequently withdrawn as soon as practicable, before which it is subject to monitoring.

10) Provisional Rating²: MIS from time to time may assign a provisional rating when the rating committee has been able to assess the relevant risks of a transaction that has not yet issued into the market based on draft documentation. It is highly likely that the rating will become final after all documents are received, or an obligation is issued into the market. To the extent it is anticipated that the transaction does not close in the near future, or that certain tranches of the transaction are not issued, the applicable provisional ratings will be withdrawn.

11) Clerical Error: MIS will withdraw a Credit Rating if it was assigned as the result of an internal clerical error.

12) Full Write-Down of Principal Balance: For Structured Finance transactions only: if the principal balance of a structured finance security is fully written down to zero because of credit loss recognitions, then MIS will withdraw the credit rating.

III. Credit Rating Announcements Regarding Withdrawal of Credit Ratings

When a Credit Rating is withdrawn, MIS will issue an indication on www.moodys.com that the Credit Rating has been withdrawn and, depending on the reason for the withdrawal, may also issue a Credit Rating Announcement.
